OBJECTIVE

Enthusiastic and motivated computer science student seeking a challenging full-stack developer internship position to apply academic knowledge in web development, gain practical experience in frontend and backend technologies, and contribute to innovative projects in a collaborative environment.

PROJECTS

Blog Application |

- Built a full-stack web app with Express.js, React.js, Node.js, and MySQL, featuring responsive CRUD operations and user authentication.
- Developed RESTful APIs for seamless frontend integration, allowing users to manage blog posts and comments.

Rock Paper Sissor game |

- Built single and multiplayer modes using React, Node.js, and Socket.io for real-time communication.
- Designed intuitive UI and integrated user authentication for seamless gameplay.

Weather API Application |

- Developed a responsive React UI to display real-time weather data from the OpenWeather Map API based on user input.
- Configured API requests to fetch specific metrics like temperature, humidity, and wind speed.

EDUCATION

BE-Computer Science and Engineering

Tamilnadu College of Engineering

2021-2025

SKILLS

- React.js
- Express js
- Bootstrap
- Node.js
- Javascript
- python
- Mysql
- css
- Problem solving

EXPERIENCE

Web Development Intern,

Nexus Info , Coimbatore ,TN

May 2024 – June 2024.

ACTIVITES

- I won first prize for web development and problem-solving in a competition held at National Engineering College
- I won third prize in a coding competition held at Hindustan College of Arts and Science.
